- e. Pro-Tip #4: Add the phrase, “In the voice of [Pick your favorite theologian], explain the Gospel of the Kingdom[or whatever topic you’d prefer to search]”, and this will encourage ShepherdAI to respond with the viewpoint of your favorite theologian by creating a response using principles of their writing.
- f. Pro-Tip #5: Provide ShepherdAI with context to respond to a statement like this, “I am a 36 year old female business owner. My husband and I own the business together. We have three daughters and we live in Florida. Our business is in the home service industry. We have two full time employees. The economy has been difficult, so our profit has not been where it should be, even though we are making a profit. My dad was recently in a catastrophic burn accident out of state. I want to be here for my mom. My dad will be in the hospital for at least six months. Should I let my employees go and scale the business down so that my husband, daughters, and myself can travel to help my family even though it puts the business at risk?”
- g. Pro-Tip #6: Provide ShepherdAI with simple assignments like, “Please write an elevator pitch for why it’s important to “evangelize”[fill in the blank with whatever you prefer], or , “Write a thesis and hook for “the importance of sharing the gospel” [fill in the blank with whatever you prefer], or, “help me build an outline for news article about the importance of being Kingdom minded” and if you’d like it to be short say something like, “Concisely, please create a social media post about the importance of being Kingdom minded.” It’s possible to provide much more elaborate requests. What you’re doing is called “prompt crafting”.
- h. Pro-Tip #7: Ask ShepherdAI for tips about how to evangelize to people of different backgrounds. If it’s a friend, family, or someone you know, provide ShepherdAI with some details about your relationship with them, what their personality is like, how they have responded in the past, and what their experiences are with religion, this will help ShepherdAI provide you with responses that are relevant and particular to the individual or group your wanting to learn more about how to reach.
- i. **Pro-Tip #8: Remember, ShepherdAI is not a human, can make mistakes, is helpful and informative when providing information, and is an excellent tool to help develop a practical viewpoint of scripture to strengthen your ability to love the body, love your neighbor, and glorify God.**

Write Your Starting Weight

Use your weight or even BMI as a place-marker as a physical test to measure your improved self-control. Determine what would be a healthy weight for your age, height, and sex. Set a goal to reach, then determine what you'll do daily to get there, how you'll know you're on track week after week, and watch your progress from month to month, year to year.

Identify Ending Weight

Did you hit your goal? What were some daily habits that helped or prevented this? Ask God for wisdom, talk with others, friends or professionals, who may provide you insight into a pattern of life that will help you grow spiritually, mentally, and physically. This is not about earning favor for yourself or from others, it is about glorifying God in every aspect of your life, including your diet, exercise, and habits of self-discipline, mental fortitude, will.

Plan for Success

Concisely write what you're aiming for. What sort of growth would you like to see. Could you improve your work ethic? Where do you struggle with lust? Is it for food, indulgence, bad habits, fleshly desires, or in choosing the good option instead of the best? Are you able to admire the success of others, applaud their hard work and learn from them, or do these sorts of things foster bitterness or even envy? Are you able to give of your time, talent, and treasure, as unto God, and live charitably, while still being wise? In what ways has God stirred up your heart to deal with pride? In what ways does it manifest itself in you? How often do tell God the wrong you willfully do? How about anger or recklessness? What poor habits have you yet to notice?

Forecast for Potential Obstacles

Write about challenges that may arise in this growth and sanctification process, reflecting on past successes, failures, and what potentially caused them, and then write down 2-3 potential solutions that you will put to the test and improve on.

Acknowledge Accomplishments

Write what you achieved, give thanks, reflect on God's grace that brought you there, and remember that He made us to glorify Him, and provides the strength to do so, and continue in it.

Find Areas to Improve

Prepare for further growth and sanctification by acknowledging where you will focus more, and write down a few specific and practical steps you'll take to do so. Then create road map for how you'll keep yourself accountable to this daily, weekly, monthly, and so on, with a set of practices you'll follow that foster the growth the Lord is leading you towards for His glory.
